

The price cap **limits the rates a supplier can charge for their default tariffs** . These include the standing charge and price for each kWh of electricity and gas (the units your bill is calculated from). It doesn't cap your total bill, which will change depending on how much energy you use.

your rate and saving on your bills

The price cap limits the rates a supplier can charge for their default tariffs. These include the standing charge and price for each kWh of electricity and gas (the units your bill is calculated from). It doesn't cap your total bill, which will change depending on how much energy you use.

The price cap will be calculated quarterly. The new price cap announcements will happen as follows:

Price Cap Period	Announcement date
01/10/22 - 31/12/22	26/08/2022
01/01/23 - 31/03/23	24/11/2022
01/04/23 - 30/06/23	27/02/2023
01/07/23 - 30/09/23	26/05/2023
01/10/23 - 31/12/23	25/08/2023
